

SHIPSWEB SMART-LINK – PC

Application Install Manual

Download Installer

SHIPSWEB SMART-LINK-PC is an onboard application that allows you to directly input engine running data to your computer and upload it to SHIPSWEB.

※ An internet environment is required when installing the application and uploading data.

Download from this site
<https://ye-shipsweb.yanmar.com/smartlink>

*To install the application, a computer with Windows10 or later is needed

Security Settings

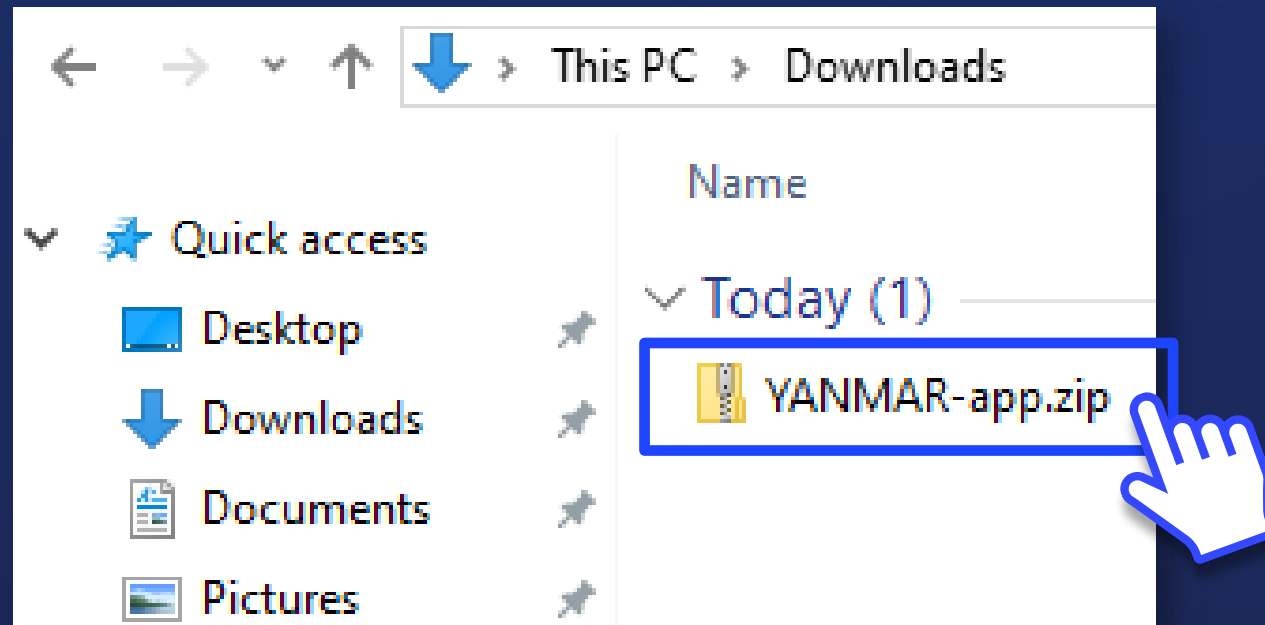

If you have firewall or security restrictions, please share these information below to your IT division.

IP address : 23.100.107.254

Address to be added to whitelist : ye-shipsweb.yanmar.com

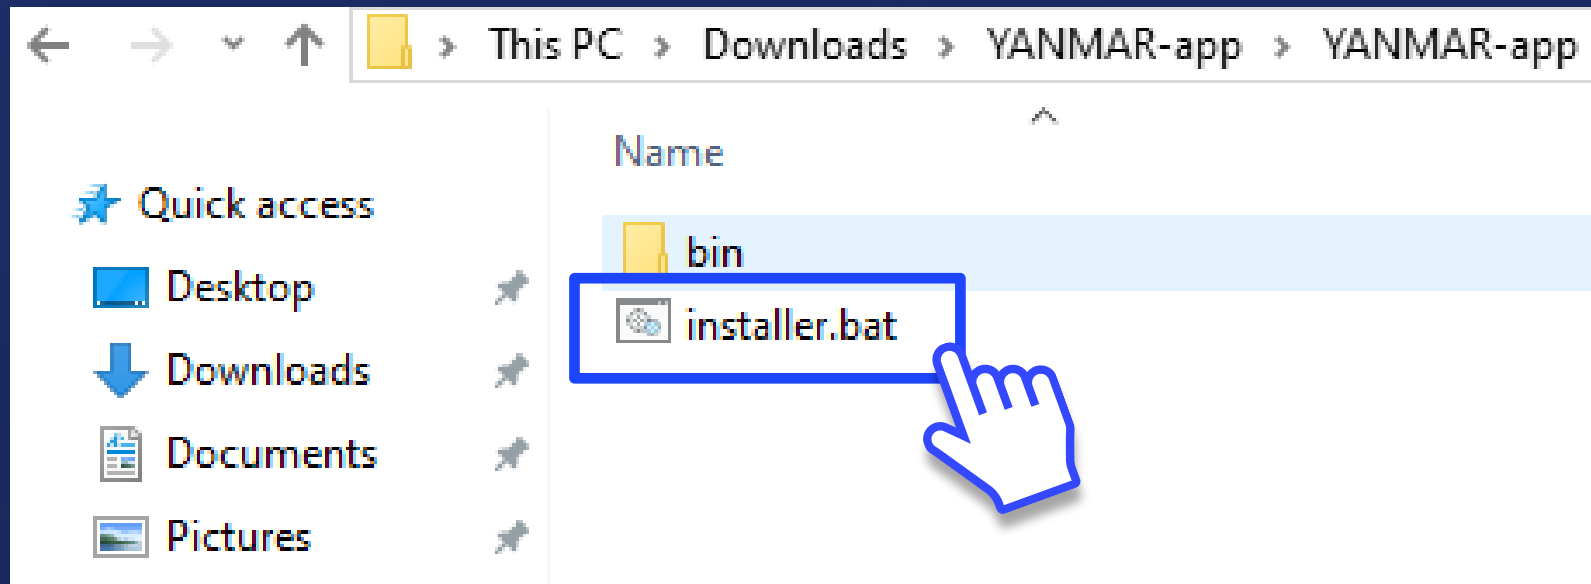

Extract File

Extract "YANMAR-app.zip" file you have downloaded.

Run Installer

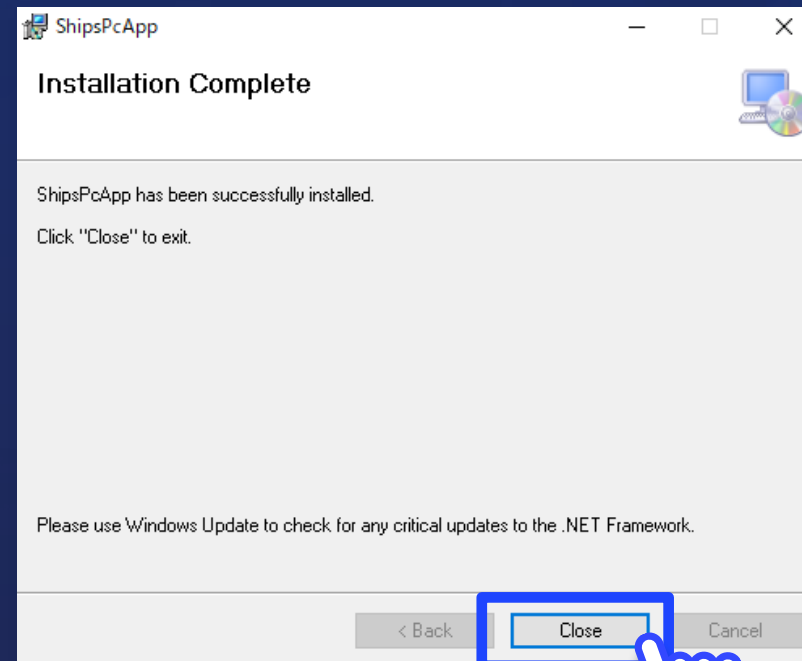

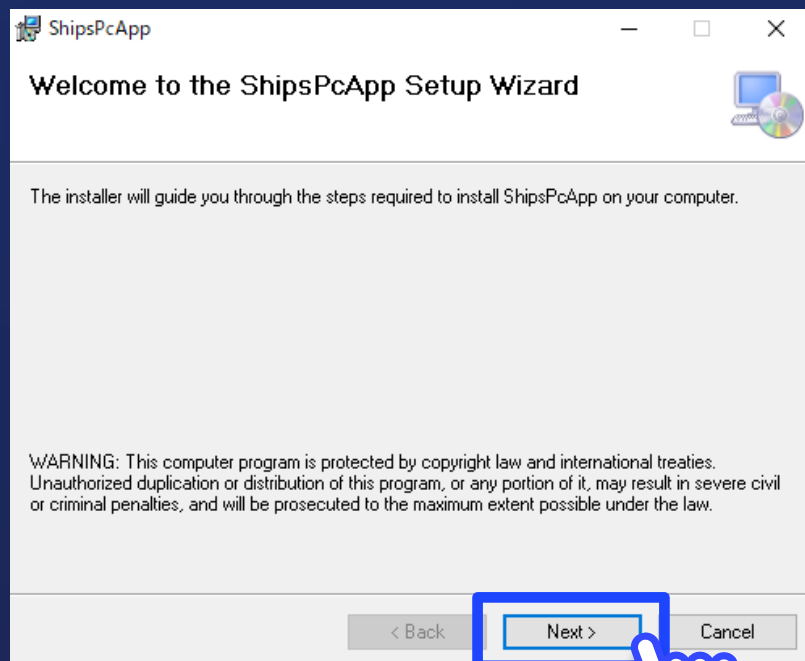

Run “installer.bat” in the extracted folder.

Run Installer

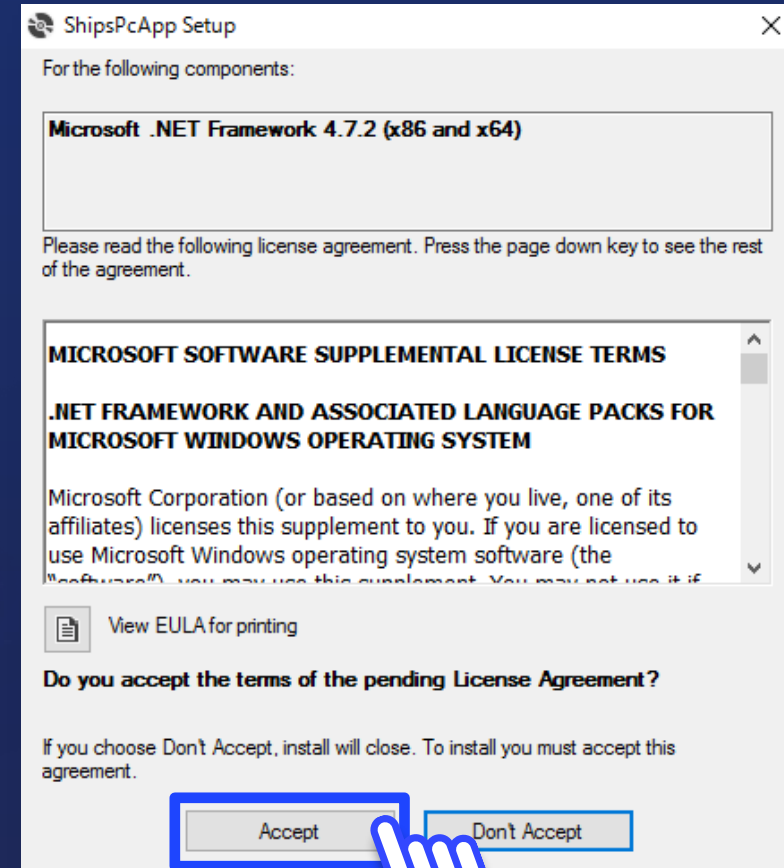

The installer shown below will start.

Click "Next" to proceed, then click "Close" when finished.

Install .NET Framework

SMART-LiNK requires Microsoft .NET Framework.
If the screen on the right appears,
Your computer may be using an older version.
Please click "Accept" to complete the installation.

Launch application

The “YANMAR-app” shortcut will be created on your desktop. Double click it to launch.
After launched, choose the language you want to use.

Language Selection

Choose the language you want to use in this application.
Please note that once you have chosen a language, you can't change it.

- ☐ English
☐ 日本語

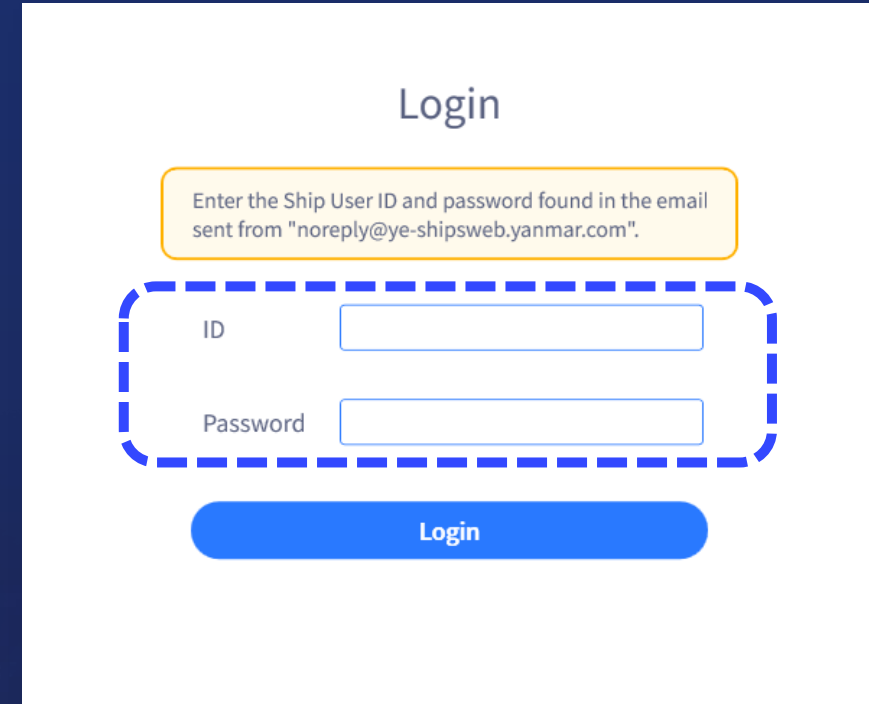

Confirm

Login

Enter your SHIPSWEB Ship User account ID and password and “log in”.

We have shared your account ID/PASS to your superintendent.
Also, account ID/PASS will be sent to all ship users via email from noreply@yanmar.com

We would like to ask you to confirm e-mail from this address.
If you can't find the email, please contact us from below address.
shipsweb_admin@yanmar.co.jp

The screenshot shows a login interface with a white background. At the top center is the title "Login". Below it is a yellow-bordered box containing the instruction: "Enter the Ship User ID and password found in the email sent from 'noreply@ye-shipsweb.yanmar.com'". Underneath this box is a dashed blue border enclosing two input fields. The first field is labeled "ID" and the second is labeled "Password". Below these fields is a solid blue button with the text "Login" in white.

Check account

If the login is successful, the following screen will be displayed.

Confirm that the ship name, IMO number, engine model and engine number are correct and click “OK” to proceed.

Are you sure you want to register ship?
If you want to change the ship after registration, please reinstall the application.

Pre-download

After a short description, you will be taken to the data pre-download screen.

Some of the features requires downloading data.

If you have good internet connections now, we prefer downloading now. If not, you can also download later.

Download and use the manual!

The data size is large, so download it in a good internet connection.

You can skip this screen and download it later from the manual screen.

- ☒ Spare Parts
- ☐ 3D Viewer (Approx. 1371MB)
- ☐ Instruction Manuals
- ☐ Video Manuals (Approx. 4736.72MB)
- ☐ Service News
- ☐ 3D Engine Analysis (Approx. 131MB)

Download

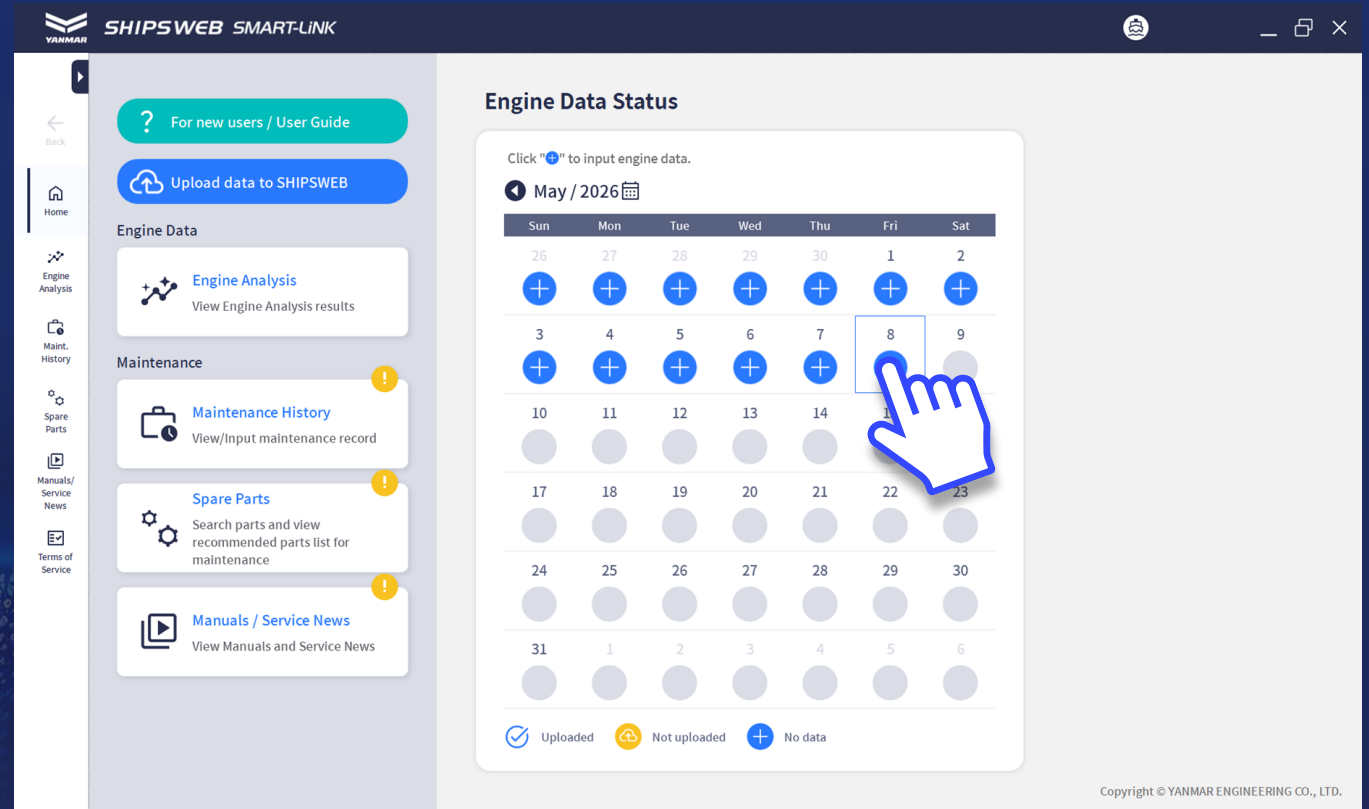

Skip to start using SHIPSWEB

Start SMART-LINK

If the home screen like on the right appears, You can use SHIPSWEB SMART-LINK-PC now.

Click the + button on the calendar to start inputting engine data.

Note : If you can't find the calendar or Engine Analysis button in your home screen, it means your engine have data linkage that automatically sends the engine data. So, you don't need to input engine data from this app.
